

Friday. P.M.  
New York.

Dear Marg:

First time I've really had a  
chance to drop a line outside of  
the union business matters, -

I keep hearing incoming reports that  
are very encouraging as far as the  
elections are concerned, - that the Reports  
about the Red Army giving Hitler his  
own medicine is likewise encouraging

The weather here is miserably wet,  
raining for past two days. I suppose  
it will eventually stop, it has before.  
I thought that trip up there was very  
nice, and look forward to making  
more, if the situation goes well -  
especially in the union where I'd be

in a good position to drive a station wagon up there or something. Then I'd be able to take all you cute girls out for a shindig.

I was wondering if you would like to keep in touch with even in Marin if so I could wrap up a copy of the "Pilot" weekly - suppose you let me know. —

I was talking with some responsible people about the idea of yours about Books for the boys in camp.

You have nothing to lose in this case & should get started on some. Just get yourself a rubber stamp made & go to town, be sure a press release is sent out to the papers so the world will know what you are

doing - & I'm sure it will receive  
good comment from all directions.  
But do. it. —————

We are now starting to send ships  
to G.B. & South Africa. Business has  
just been concluded. 125, for the  
S.U. + \$50.00 for G.B. — there  
should be a lot of activity now.

Well drop me a line, & give  
my regards to those 2 Dute kids  
& say hello to the ones who just  
love those "Those southern Boys."

Salud.

W. Ke
